PROFILE

UX/UI designer and front-end developer with hands-on experience designing web products, therapeutic technology programs, and branded collateral. Comfortable owning end-to-end design work — from wireframes and prototypes in Figma to production-ready HTML/CSS — and collaborating with cross-functional teams. Currently seeking roles in product design, UX, or creative technology.

EXPERIENCE

Freelance & Independent Work · Self-EmployedJan 2026 – Present

Salem, UT

- Operating an independent 3D print design business — handling client briefs, CAD modeling, print production, and delivery.
- Working as a part-time DJ for private events and local venues; managing client relationships, audio equipment, and set planning.
- Independent contractor with DoorDash, managing own schedule and logistics.

Community Liaison & Web Designer · Helperly (dissolved)Jul 2025 – Dec 2025

Sandy, UT

- Designed and built the company's Webflow website from the ground up, including information architecture, visual design, and custom HTML/CSS implementation.
- Produced branded print collateral — business cards, employee ID badges, and liaison lanyards — ensuring consistency across physical and digital touchpoints.
- Active stakeholder in company rebranding initiative; contributing to feature planning, visual identity, and go-to-market campaign strategy.

Therapeutic Recreation Technician · Utah State HospitalSep 2023 – Oct 2024

Provo, UT

- Developed and facilitated 10+ evidence-based therapeutic group programs for psychiatric inpatients, applying human-centered design principles to patient engagement.
 - Led development and user management of a hospital-wide therapeutic VR program — coordinating hardware setup, onboarding staff, and iterating on the patient experience.
 - Participated in daily interdisciplinary treatment team meetings, translating clinical feedback into individualized care plan adjustments.
